

LEANING WALL SUPPORT BRACKET FOR A STURDY AND RELIABLE HOLD!

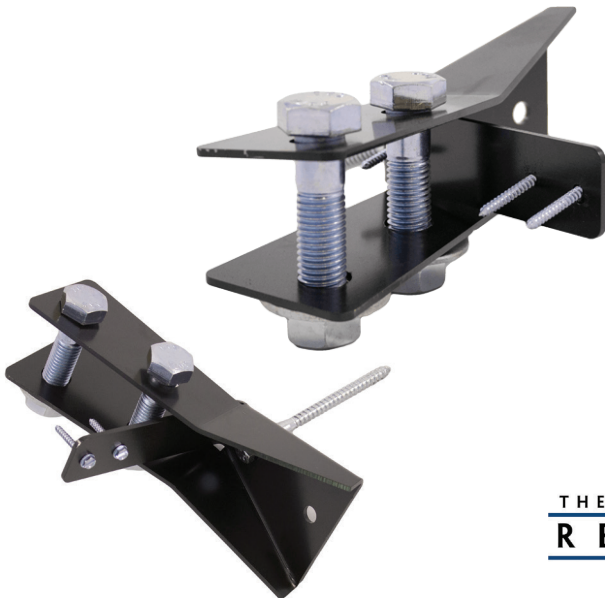

TERMINATOR® strengthens the connection between the foundation wall and the wood framing, **STOPPING** inward movement and **PREVENTING** costly future repairs.

Attaches to floor joists making a shear proof, “**thru-bolt**” connection.

Constructed of high-strength steel and **resists up to 6,000lbs of force.**

Easy installation and a compact, sleek design.

Use TERMINATOR® alone to improve top-of-wall connection or combine with **REINFORCER® carbon fiber** for full wall support!
