GEO DRAIN TILE

## 3 STEPS TO A DRY, HEALTHY HOME

**1** DRYSHIELD  
WATERPROOF WALL SYSTEM

DEHUMIDIFIER

**2** HYDROCHANNEL  
DRAIN BOARD SYSTEM  
(AVAILABLE IN CLEAR)

**3** GEO DRAIN TILE  
DRAINAGE SYSTEM

SUMP PUMP SYSTEM

**1** DRYSHIELD  
WATERPROOF WALL SYSTEM

**2** HYDROCHANNEL  
DRAIN BOARD SYSTEM

**3** GEO DRAIN TILE  
DRAINAGE SYSTEM

Directs basement water seepage below the slab to the interior drainage system. Stops the evaporative effect, helping to **eliminate musty damp basement air**.

**Creates a path** for basement water seepage to the interior drain system. **Acts as a vapor barrier** to decrease basement dampness.

High flow interior drain, **channels water** rapidly to the **sump pump system** and out of the home.

These 3 systems, along with a quality sump pump and commercial grade dehumidifier, will provide you with a **dry, healthy, inviting space for years to come!**
